

THE SHED MAKERS

TRADITIONAL POTTING SHED

01606 212 868

sales@theshedmakers.co.uk

The Traditional Potting shed is designed to allow more light than a standard shed. It comes with a strong work bench for heavy loads. Made using (19) 16mm pressure treated T&G with strong 3 x 2 (60 x 40mm) framing and toughened safety glass. We can of course manufacture to your complete requirements should you not find what you are looking for.

Model E

Model D

12" Galvanised tee hinges, hasp & staple and 3" turn button as standard on all buildings

Optional Stable door to allow air flow and a lighter environment when tending to your pots and plants.

Bespoke design service available

The traditional potting shed comes complete with a robust work bench.

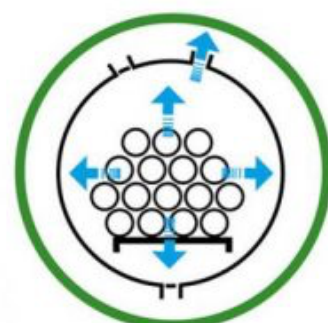

4mm Toughened Glass

10 x 8	£2,269
12 x 8	£2,709

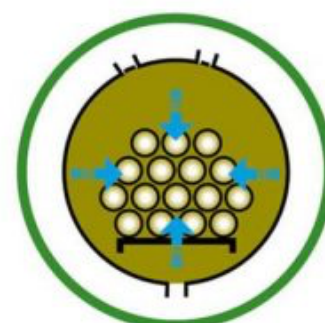

HIGH PRESSURE TREATMENT PROCESS

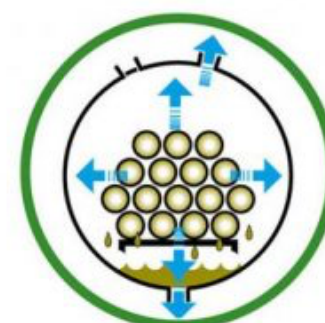

Timber loaded into treatment vessel. Initial vacuum applied and the timber cells are evacuated of air. Vacuum held.

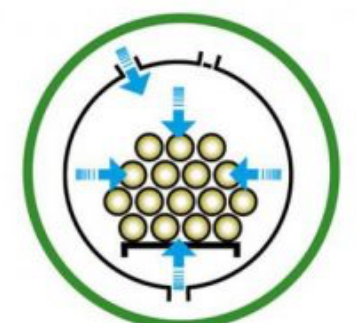

Cylinder flooded under vacuum with TANALITH wood preservative.

Hydraulic pressure applied, forcing the preservative deep into the structure of the timber.

Final vacuum extracts excess preservative solution, which is pumped back to storage.

Low pressure inside timber draws in surface solution when vented to atmosphere. Treated timber is left to dry.

All our prices include VAT and installation

Free local delivery (within 30 miles) and pressure treatment
